Dear Senator Edwards

You have been constantly in my thoughts. I feel with you and share all the painful moments of questions - and part of not knowing the unclear ways and means that have been put together.

When you speak it has the truth and substance that can change and help America. Your opponents use your words without the background or the thought and knowledge of how to make it work.

Bryan and I have a quotation from an old black man who taught me these words - "Taint quality Miss Bunny" – he would say this when I was a young girl and he didn't think well of my guests.

The way things appear now in the political world "Taint quality," Senator!

This country is blessed to have you. I am surprised at Teddy Kennedy's endorsement.

You have an important role in re-building this country. There will be many changes to come in the weeks ahead.

I suggested to Bryan that you and Andrew go to our house in Antigua for a time of peace and thought when it's convenient for you both.

PLEASE KNOW THAT YOU WILL ALWAYS HAVE MY SUPPORT AND PRAYERS.

A Big Hug &
Much Love -
Bunny -
